

**Rif. EURES Germania - Please quote "Ref. Nr. 10000-1030536699-S - EURES".**

Through the development of efficient, high-quality system components, we have been setting national and international standards in the Biogas sector.

We have been intensively occupied with the production of Biogas from renewable raw materials since the 1990s, and in 2000 we founded the agriKomp GmbH company in order to be able to provide our customers with full service support: tailor-made solutions for every operation; Biogas plants, in which all the components have been matched in the finest detail.

To consolidate our service in **Northern Italy** we are seeking for immediate entry a: **Mechanical Engineer / Technician / Mechantronics Engineer (m/f)**

Your tasks will be:

- Customer consultancy and customer support
- Trouble-shooting on electrical components and electrical control cabinets
- Compilation of a rapid fault diagnosis and repair in Combined Heat and Power Stations
- On site technical consultancy and base estimates with the farmer
- Cooperation in the preparation of building-specific overall concepts
- Remote maintenance via the Internet

Your profile:

- Successfully completed qualification as a Mechanical Engineer, Mechanical Technician or a Mechantronics Engineer
- Knowledge of Italian is imperative, very good knowledge of English or German
- Several years of occupational experience
- Experience in project management
- Pronounced focus on the customers' needs and on service requirements
- Well-founded agricultural knowledge
- High proficiency in MS-Office
- Personality, assertiveness and ability to work in a team
- High readiness to travel

Waiting for you, alongside attractive tasks, are the dynamics of a successful and modern enterprise with a company culture, characterised by team spirit, which also leaves freedom for individual initiative and opportunities for development.

We are looking forward to receiving your application in German or English (with salary expectations) by post or E-mail to agriKomp GmbH, Energiepark 2, D-91732 Merkendorf, [bewerbung@agriKomp.de](mailto:bewerbung@agriKomp.de).
